Popular Former Governor Given Cordial Reception.

Cordial Reception.

Former Governor J. Hoge Tyler, of Pulaski, came down from his home yesterday and is stopping at Murphy's. Major Tyler spent the day paying calls and at the Capitol, shaking hands with old friends, having also attended 'l'-a unveiling of the McGuire monument. He was warmly greeted both at the Capitol and in the hotel lobby and was as bright and chirpy as though he had just borne of seme distinguished political honor.

Major Tyler's visit here is understood to have no political significance, but he came down to visit his son, Major S. Hoth Tyler, in Norfolk, and to call on some friends here. He will leave for Norfolk to-day and will go from there to Washington to look after some matters before returning home.

Too Much Ice.

The new dredging machine recently constructed for the work of deepening the harbor here, under the direction of the Committee on James River Improvement, was not tested yesterday afternoon, owing to the quantity of ice in the river. The test will be made shortly.

Case Is Still On.

The Law and Equity Court was engaged again yesterday in the trial of the suit of K. C. Wilson against the Richmond Traction Company for \$800 alleged damages. The case will likely be given to the jury to-day.

The letter ran in part as follows:

He was given two very important letters to mail, one addressed to Cleveland, Ohio, and the other to Laverpool. England, says the Philadelphia Bulietin. As he was about to place them in the receptacles in the postoffice the clerk's eagle eye detected that his employer had made a slight mistake. He had placed a five-cent stamp, required for foreign postage, on the Cleveland letter, and the two-cont one on the Laverpool missive. The anercierk was, of course, equal to the casers gency, and soon had the matter adjusted all right. Then he fairly flew down Market Street to report the mistake that had been made to his employer.

Poultry Professor.

How to raise chickens will be taught at the University of Missouri. The curriurs have decided to offer a full course in positry raising. A short course was offered last year, but this year the study is to be put on an equal plane with the studies in the other departments, and full instructions in the breeding and handling of domestic fowls and the production of eggs will be given.

fewis and the production of eggs will be given.

The easons for extending the course is due to the increasing importance of the poulty industry and the remarkable interest manifested at the university last year, when the study was first introduced. The records show that it proved to be the most popular course ever offered at the Miscord interesting that a number of professors enrolled themselves as students, and entered the poultry department. The highest grades in the class were made by two members of the faculty. Another reason for the extension of the course is that the poultry buriness has become one of the leading industries in Miscouri, the annual income from the same now heing estimated at over \$19,009,600.—St. Louis Globe-Democrat.
